

HUDSON
DERMATOLOGY & LASER SURGERY

HairStim Directions for Application:

- Apply a small amount of topical solution directly on the scalp in the area of hairloss, then rub it into the area with your fingertips.
- Spray: 1 pump per quarter sized area; Dropper - 3 drops per quarter sized area; Padded sponge - 2-3 daps per area
- Leave the medication on. DO NOT wash it off.
- Remember! It is not about the quantity you use each time. It is about consistency of daily application for at least 12 weeks to start seeing results
- Redness, some irritation, and tenderness at the beginning of use are normal and expected. If you develop significant dryness, skip a day or two of application. Call this office if this continues.
- If you develop blistering, or severe itch, stop the medication and call the office
- Store open bottle at room temperature, no refrigeration is required
- The refill after 180 days of initial use or previous in person visit requires a follow up visit.
- If you have any questions, please feel free to call us at 917-970-9100. Our medical team will listen and help you address any of your concerns.

Hair Loss can take an emotional toll, and we know that. You are not alone. We are with you in this journey and we are always here to help.
